It's all about being Pukka.....

## Introduction

**PUKKA PADS**, is an innovative manufacturer and supplier of high quality, stylish stationery and office products. Since its conception in the UK in 1999, where the Company is still head-quartered, the **PUKKA** brand has become synonymous with quality, style and value. Due to rapid growth, Pukka Pads has established strategic offices, together with warehouses, in the UK and in China, allowing our customers to receive stock from their nearest country. We can hold in excess of 4000 pallets at any one time in our UK warehouse.

The Company is continually researching new markets and expanding in order to strengthen and further develop its position as a market leading, branded stationery provider. Our philosophy of supplying high quality, value for money merchandise has allowed us to develop long term relations with distributors, wholesalers and large retail organisations in many countries around the globe.

We offer a broad range of stationery products from various sizes and formats of paper products (e.g. meeting pads, note pads, project books, refills, envelopes and Back To School products) to various filing products, paper clips, maths sets, pens, rulers and rubbers which are marketed under the **PUKKA PRODUCTS** brand. Our product range is constantly reviewed and our creative team regularly introduce fresh designs with original ideas to the market place.

Our core end customers are young professionals who not only want a top quality brand, but also insist on value for money. Our pads are mainly manufactured using 80gsm quality papers. The **UNIPAD** range being the exception (where 60gsm quality paper is used), as this range is aimed at the School/Academic user.

To cater for the environmentally conscientious customer, Pukka Pads offers a range of products using 100% recycled paper, including a recycled version of the popular meeting pad. We are heavily developing and working on many products to enlarge our recycled range.

Please be assured that all paper used is from sustainable sources and made in mills with ISO9002 and ISO14001 accreditation.

In addition to our branded ranges, we are able to supply corporate clients, local authorities and governmental offices with bespoke stationery products. For an informal discussion on how we can assess your needs, please contact our UK Headquarters.

We have products to satisfy the needs of all, from students and young professionals to businesses operating in commerce and industry, academic organisations and governmental departments.

**PUKKA PADS, PUKKA PRODUCTS and UNIPADS are registered brand names.**
