THE WRITE PRODUCT FOR YOU

WWW.PUKKA-PADS.CO.UK

OUR HISTORY

The Company has been operating from our UK headquarters since 1999. Our business has grown internationally and we now supply products to many countries around the globe. Our UK infrastructure includes our Poole based head office, sales office and design studio, plus a central warehouse located at Lutterworth, which is capable of holding in excess of 4000 pallets of stock at any one time. In recent years Pukka Pads has established its own paper pad production facility and strategic office in the Far East, a trading office in Hong Kong and a sales and distribution centre in Poland. The business was further expanded in 2011, by the acquisition of two UK based production plants involved in the manufacture of a wide variety of business forms.

OVERSEAS

In addition to the UK based sales team, Pukka Pads has also established strategically located sales offices in Poland and Hong Kong.

The European sales team have extensive knowledge of the market, and their visions have proven to be a great success. The Polish site incorporates a warehouse and distribution facility which serves clients for the Polish domestic market and for clients located in mainland Europe. We hope this company development shows our further commitment to our clients and the importance placed by the business on continually driving improvements in service levels.

The Hong Kong office offers clients the opportunity to purchase good directly from the Far East on an F.O.B basis reducing logistics and lead times

in the process. Our highly experienced team in Hong Kong also undertake sourcing of any product which our clients may wish to purchase. The team constantly research new formats and materials and develop relationships with accomplished factories. The Pukka Pads quality control system requires factories to pass strict production standards for all of the products. To ensure excellence in every product and strive to exceed client expectations.

FAREAST MANUFACTURER

A major recent development for the company was the creation of its own paper pad production plant and office in Kunshan, China. Our Chinese factory is both ISO 9001 registered and FSC certified. With leading technology, research and development capabilities and a sustainable supply commitment, we produce high quality Pukka branded notepads and paper products.

We also provide own brand design and production services at highly competitive rates, offering:

- UK innovative design team eager to create designs suited to your visions.
- Choose from any of our existing notepads and paper products.
- Manufactured to your production requirements.
- Packaged to meet your needs.

Our rapidly increasing client portfolio of bespoke production includes many well known international stationery wholesaler, retailers, supermarket chains and catalogue companies.

UKMANUFACTURER

The Pukka Pads group of companies were further expanded in 2011, by the acquisition of two UK based production plants involved in the manufacture of a wide variety of business forms (duplicate/triplicate pads in carbon and NCR formats, Sage compatible forms, continuous forms etc). Gaining new valuable team members including three senior managers that have over 100 years of print experience between them, this combined with an experienced team means we are able to offer not just exceptional quality, great prices but excellent customer service too. The team offer a wide selection of standard stock items, however we also offer bespoke design and production of business forms accordingly to individual clients requirements and specifications.

OUR ETHICS

Pukka Pads are committed to conducting business in an environmentally responsible manner. We strive to remain aware of the environmental performance of our staff, suppliers and production plants wherever possible.

We take pride in that all of our paper pads and notebooks are produced from paper which originates from sustainable sources and products are made in mills with ISO9002 and ISO14001 accreditation. In 2010, Pukka Pads production plant was officially certified by the Forest Stewardship Council (FSC).

FINAL NOTE

We would like to thank all of our clients for your continued support in 2012 and we look forward to working with all of you in 2013/14.

We are very grateful for the excellent relationships we have with all of our customers. With your help and support we have been able to keep pushing our ranges forward as well as making a continued effort to improve the service and support you receive back from us.

OUR NEWS

Pukka Pads Expands Successful Metallic Range

The Pukka Pads Team are excited to expand our best-selling Metallic range this year with the launch of our brand new Metallic Executive Project Books A4/A5, Metallic Pocket Book A7 and the re-design of our Refill range.

We are very proud of our premium quality Executive Project Books that feature 80gsm perforated paper, metallic printed hardback covers, elasticated closure, a world map, personal details page and five colour coded movable subject dividers with storage pockets.

We aim to cater for the young professional seeking style and sophistication in a notepad with these new releases and we are sure that the high spec and design of the new Metallic family will deliver exactly this.

New Soft Cover Notebook Range from Pukka Pads

This year we see the launch of the brand new Pukka Pads Soft Cover notebook range, an exciting new range of products designed for both personal and professional use.

This high quality range will feature our new-style smooth casebound covers. The innovative smooth finish applied to the casebound covers on these notebooks gives them a luxurious feel when touched, but still allows them to be opened fully and laid flat, when required.

All of the notebooks in the new Soft Cover notebook range, from Pukka Pads, will contain 192 cream coloured, lined pages of 80gsm, acid-free paper and will feature our new-style 'resistant but flexible' smooth finished durable casebound covers. These new-style notebooks will also feature a useful page marker ribbon and an elasticised closure which can also be used as a bookmark.

New Everyday Fashion Designs Perfect for a Pukka Back to School

Pukka Pads is known for design and colour. Our team of talented designers stay on top of trends and with their visions, intense dedication and passion for the Pukka Pads brand this results in designs that delight and inspire consumers worldwide. So just as fashion is constantly evolving, so are the designs of our fashionable everyday ranges.

We are delighted to unveil our three new everyday ranges Dots, Navy and Puddles for 2013. These beautifully colourful ranges are offered in a selection of notebook and filing products. Perfect for everyday use or for going back to school in style. These designs certainly do stand out from the crowd.

New PP Filing Range Designed by Pukka Pads

Pukka Pads is a trusted stationery brand. As a team we constantly strive to bring high quality, innovative products to our customers. So designing an affordable though premium, presentation and filing range was a natural progression for us.

The range offers useful and unique features that have been developed by one of our passionate national account managers who has expertise in filing products.

This high quality range of twenty products is available in five colour ways suitable for both business and everyday use. The innovative extra large format feature ensures your note pages and divider tabs are not damaged. Each product is perfect for indexing, organising and presenting.

PUKKAPADS&ENVIRONMENT

Pukka Pads realise that as a modern and progressive group of companies we have a responsibility to be aware of our impact on the environment and a duty to do everything in our means to lessen that impact. We want you to enjoy your Pukka Pad or Pukka Product with the knowledge that we are doing our part. To ensure we live up to our long term environmental values Pukka Pads has made a commitment to:

- Use paper and materials from well managed and accredited sources & suppliers only
- Undertake the manufacturing and shipping of our products in a responsible manner
- Produce recyclable pads and products only, wherever possible
- Recycle our office and warehouse waste and to encourage a healthy working environment
- Always look for ways to improve and secure the future of the paper industry

SOURCES&SUPPLIERS

All of the paper we use for our products originates from sustainable sources. The planting of new trees is important to us; it is a crucial part of eliminating our impact on the environment as well as helping to secure the supply of paper for future generations.

MANUFACTURING&SHIPPING

All of the paper mills we use are ISO9002 and ISO14001 accredited. We also work closely with various recycling companies which allows us to offer recycled paper to all of our customers.

In addition to this, both the Pukka Pads production plant in Shanghai and 'Cardinal Brands', one of our UK printing and production sites, are now fully FSC certified. FSC is an independent, not for profit, non-government organisation established to support environmentally appropriate, socially beneficial and economically viable management of the world's forests. Our goal for 2013 is to see all of our printing and production sites world-wide achieve the same fully certified status.

As a global business the transport of our products is kept to an absolute minimum, we manage our shipping in such a way that allows us to distribute products all over the world but which does not see any unnecessary movement of stock.

PADS&PRODUCTS

All of the pads we produce are fully recyclable, with the slight exception of our wire bound products which are 98% recyclable. To increase the options available to our customers Pukka Pads also offer a recycled range of pads and notebooks. We are very proud of this responsible approach and are aware that as consumers of our products; you would not expect anything less.

RECYCLING&WORKENVIRONMENTS

We realise that we need to carry our environmental values through to all aspects of our business. We recycle all of our office and warehouse waste where possible, including many specialist items such as used inks and printing plates. We fully support the recycling industry and are happy to see the market for recycling waste growing annually.

LOOKINGFORWARDS

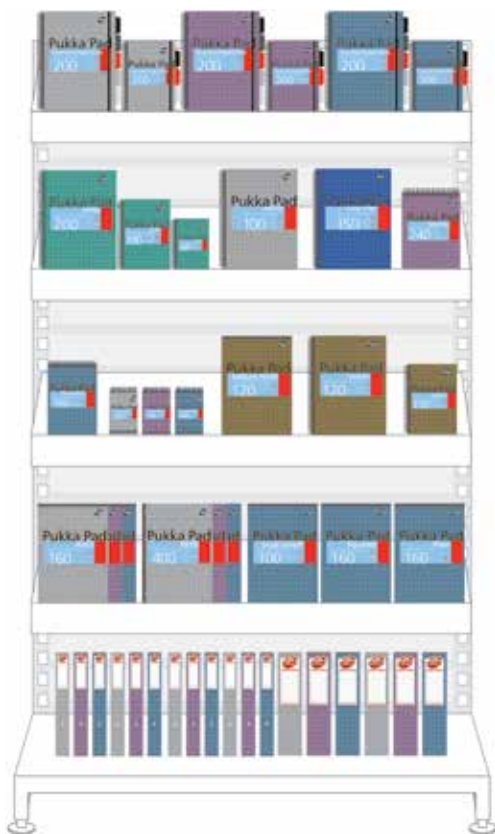

We strive to be fully informed of the latest developments and standards in paper production and promise to implement them into our business where possible.

This year we have replaced all of our National Account Manager's company vehicles with fully hybrid cars. This is an example of what Pukka Pads is doing to help eliminate our impact on the environment and of how businesses like ours really can make a difference.

PLANOGRAMSERVICE

Maximise sales with vibrant eye catching displays & products. Pukka Pads Sales & Design team offer a planogram service, helping you to make the right product choices for your market.

FSDU Range

Only taking a few seconds to set-up, the Pukka FSDU offers huge visibility and will show case your Pukka products. The FSDU offers significant storage capacity to make products available out of the aisle..

Please contact the Pukka Pads Sales Department for further information.
sales@pukka-pads.co.uk

Pukka Branded FSDU

Our new Pukka Pads Free Standing Display Unit (FSDU) boasts an eye-catching design in bright Pukka branded colours. It is almost certain that the FSDU will draw the attention of potential customers. The display communicates the Pukka brand at the point of sale and will attract consumers and convert their interest of the products into product sales.

This Display Unit looks fantastic when used with any of the Pukka products ranges, however this FSDU can also be used to display a mix of Pukka ranges and will still look great.

As you are now hopefully aware our business has further expanded, by the acquisition of two UK based production plants involved in the manufacture of a wide variety of business forms.

In addition to the many and varied standard business form products we now offer, we can also develop bespoke products exclusive to a brand or manufacturer, in your local language.

We are able to offer not just exceptional quality, great prices but excellent service too.

*The Pukka Pad Business Forms team are ready to take on your print requirements. So contact us today:
www.pukkabusinessforms.co.uk*

The Everyday range is a practical range of pads consisting of 80GSM high quality white paper with modern cover designs suitable for all age groups and environments. The range has been created to offer a variety of pads and features including casebound, hardback and polyprop.

The pads are stylish and durable with many useful features such as margins, perforated and hole punched pages for easy filing.

The Pukka Pads Project Book and Academic Planners have even more to offer with a mix of colour coded re-positionable dividers with storage pockets, diary and calendar pages, global maps, personal details pages and more!

COLOUR *PRODUCTS*

The 80gsm coloured paper pads are available in a choice of 6 attractive colours. The pads have been designed with guidance from the Irlen Institute who specialise in products for those with visual perception difficulties.

With the use of formulated coloured paper and tinted ruling with margin, the coloured pads can help those with Irlen syndrome and / or Dyslexia.

Located within the inside front cover of the pad is a visual stress selftesting form. This will help anyone with Irlen syndrome to assess which colour pad they are most suited to.

BESPOKE PRODUCTS

In addition to the many and varied products listed, we also develop bespoke products exclusive to a brand or manufacturer. We offer a fully bespoke service and can create:

- Fully branded products to match your venue, brand or event
- Selected from a range of pukka notepads & products – or why not create your own?
- Designed and printed to your requirements
- Packaged to meet your needs

If you are interested in purchasing for your own brand, minimum orders may apply.

Contact us to find out how we can add value to your brand.

DESIGNSTUDIO

Our products are awesome! - at least that's what our customers tell us! With fashionable designs and great functions, Pukka Pads variety of notebooks, business forms, sticky notes, copy paper, filing, and stationery products all certainly stand out from the shelf!

We wouldn't be able to provide any of this to our consumers without the help of our studio teams. Our team of talented designers stay on top of trends and with their visions, intense dedication and passion for the Pukka Pads brand this results in designs that delight and inspire consumers worldwide.

People expect more from our products and that's what they get. We have an innovation team dedicated to new product design. From concept to prototype, our innovation team use the latest research to develop everyday, school, and office supplies that consumers love.

Our studio love to innovate so our product and design portfolio is constantly growing. And we would love to share our teams visions with you!

DESIGNPORTFOLIO

Contact yours sales representative to view our product and design portfolio. Or why not discuss working with our design team to create exclusive cover designs suited to your own visions.

PUKKAPADS&ENVIRONMENT

Pukka Pads realise that as a modern and progressive group of companies we have a responsibility to be aware of our impact on the environment and a duty to do everything in our means to lessen that impact. We want you to enjoy your Pukka Pad or Pukka Product with the knowledge that we are doing our part. To ensure we live up to our long term environmental values Pukka Pads has made a commitment to:

- Use paper and materials from well managed and accredited sources & suppliers only
- Undertake the manufacturing and shipping of our products in a responsible manner
- Produce recyclable pads and products only, wherever possible
- Recycle our office and warehouse waste and to encourage a healthy working environment
- Always look for ways to improve and secure the future of the paper industry

SOURCES&SUPPLIERS

All of the paper we use for our products originates from sustainable sources. The planting of new trees is important to us; it is a crucial part of eliminating our impact on the environment as well as helping to secure the supply of paper for future generations.

MANUFACTURING&SHIPPING

All of the paper mills we use are ISO9002 and ISO14001 accredited. We also work closely with various recycling companies which allows us to offer recycled paper to all of our customers.

In addition to this, both the Pukka Pads production plant in Shanghai and 'Cardinal Brands', one of our UK printing and production sites, are now fully FSC certified. FSC is an independent, not for profit, non-government organisation established to support environmentally appropriate, socially beneficial and economically viable management of the world's forests. Our goal for 2013 is to see all of our printing and production sites world-wide achieve the same fully certified status.

As a global business the transport of our products is kept to an absolute minimum, we manage our shipping in such a way that allows us to distribute products all over the world but which does not see any unnecessary movement of stock.

PADS&PRODUCTS

All of the pads we produce are fully recyclable, with the slight exception of our wire bound products which are 98% recyclable. To increase the options available to our customers Pukka Pads also offer a recycled range of pads and notebooks. We are very proud of this responsible approach and are aware that as consumers of our products; you would not expect anything less.

RECYCLING&WORKENVIRONMENTS

We realise that we need to carry our environmental values through to all aspects of our business. We recycle all of our office and warehouse waste where possible, including many specialist items such as used inks and printing plates. We fully support the recycling industry and are happy to see the market for recycling waste growing annually.

LOOKINGFORWARDS

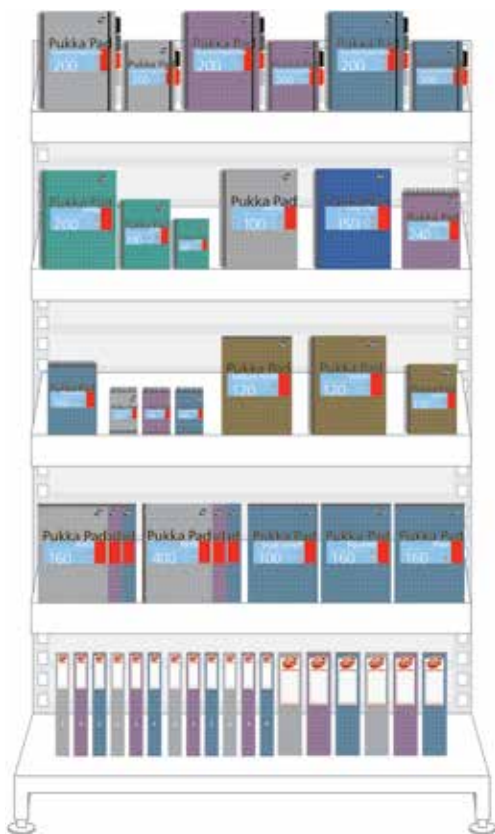

We strive to be fully informed of the latest developments and standards in paper production and promise to implement them into our business where possible.

This year we have replaced all of our National Account Manager's company vehicles with fully hybrid cars. This is an example of what Pukka Pads is doing to help eliminate our impact on the environment and of how businesses like ours really can make a difference.

PLANOGRAMSERVICE

Maximise sales with vibrant eye catching displays & products. Pukka Pads Sales & Design team offer a planogram service, helping you to make the right product choices for your market.
